Let the Afflicted Read And Ponder! More than 500 persons in the City of Richmond, Va. alone testify to the remarkable cures performed by CARTER'S SPANISH MIXTURE.

THE great Spring Medicine and Purifier of the Blood is now used by hundreds of grateful patients, who testify daily to the remarkable cures performed by the greatest of all medicines, Carter's Spanish Mixture. Neuralgia, Rheumatism, Serofula, Eruptions on the Skin, Liver Disease, Fevers, Ulcers, Old Sores, Affections of the Kidneys, Diseases of the Throat, Female Complaints, Pains and Aching of the Bones and Joints, are speedily put to flight by using this great and inestimable remedy.

For all diseases of the Blood, nothing has yet been found

to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver and Kidneys, strengthens the Digestion, gives tone to the Stomach, makes the Skin clear and healthy, and restores the Constitution enfeebled by disease or broken down by the excesses of youth to its

pristine vigor and strength.

For the Ladies, it is incomparably better than all the cosmetics ever used. A few doses of Carter's Spanish Mixture will remove all sallowness of complexion, bring the roses mantling to the cheek, give elasticity to the step, and improve the general health in a remarkable degree, beyond all the mo icines ever heard of. A large number of certificates of remarkable cures perfor

med on persons residing in the city of Richmond, Va., by the use of Carter's Spanish Mixture, is the best evidence that there is no humbug about it. The press, hotel keepers, magistrates, physicians, and public men, well known to the community, all add their testimony to the effects of this GREAT BLOOD PURIFIER. MR. HUTCHESON—

Dear Sur:—I take pleasure in saying that the box of your Pile Ointment I obtained from you, has entirely cured me; it gave me relief in fifteen minutes after making the first I had been affleted with Piles for eight or ten years, and had tried a number of remedies, without any benefit. I think your remedy superior to any I have ever tried.

BOTETOURT COUNTY, Oct. 9th, 1853.

MR HUTCHESON-

MR HUTCHESON—

Dear Sir:—I feel it to be my duty to say a word upon the merits of your Celebrated Ointment. I am constrained, from experience, to pronounce it the best Healing and Pain Killing Agent I have even seen employed. A few months since, my little son got one of his legs broken, after which he was carried a considerable distance, which caused extreme soreness of the broken limb; I applied your Ointment, and in less than three hours all soreness had disappeared. A short time since, a member of my family was taken with malignant sore throat, and I unhesitatingly say that, within one hour ofter the first application, he was almost entirely relieved. I write for the benefit of the suffering. Yours, &c.

MESSES. EDITORS: - We continue our statement of efforts that have been made to secure a U. S. Marine Hospital at Wilmington. We regret that we cannot state more of what was done prior to 1843, because of the destruction by fires of correspondence on the subject. It must be obvious, however, that our ef-Arkansas, as a site for a Hospital may be inferred ed on; but, to the surprise of the Russians, a third from the fact that there are only 75 Boatmen and 3 shot was fired at him, untouched, however, he was Mariners in that State, and from the opinion of the about to cut down the Leaghian, when a fourth dis-U. And yet this place can have a Hospital which has already cost \$47,250, while Congress refuses to appropriate \$10,000 for a Hospital for Wilmington. We have reason to believe from the most reliable oral information that the attention of almost every Secretary of the Treasury has been directed to this matter. And we know of Acts of the Legislature of North Carolina, and Memorials to Congress embracing a period of near forty years, that exhibit the importance and necessity of it. Is it not somewhat remarkable that notwithstanding the Secretary of the Treasury in pursuance of a resolution of the Senate in 1837, collected information "pertinent to a purpose of erecting three Hospitals on the Western waters, and the like number on the Atlantic and Gulph coasts," that from that time to 1853, there were established only two Hospitals at a cost of \$35,600 00, for Seamen representing 3,945,355 tons, and TEN Hospitals costing \$463,-508 20 for Boatmen connected with only 193,085

The Secretary of the Treasury answered by inquiring "the cost of the repairs needed and what additional expense would be ncurred in the establishment of such an Hospital?" We are not in possession of the answer of the Collector, but believe that the entire expense for repairs would not have exceeded \$250, and we know that a keeper could have been obtained for \$250 per annum. But was it not presumption in us to suppose that such an expenditure would be authorized or recommended by the Treasury Department when there was "already a Hospital in N. Carolina" which cost the government when finished \$10,000, and while unfinished Hospitals of the West costing \$50,000, had yet to be supplied from the general hospital fund?

The Leaghian still stood firm, merely folding his pelisse of sheep's skin round his left arm, ready to receive a blow, a precaution not unneeded, since now two Russians, abreast, were on the point of assailing him. Certain of their prey, these advanced more cautiously than their predecessors. This time two deliberate shoots brought them down right and left; each fell pierced near the region of the heart. The remaining soldiers were amazed. The Leaghian, faint with loss of blood, and feeling his strength fast ebbing, now drew forth another pistol, a movement unobserved by the enemy, and rapidly fired three shots at the group of Russians, some fifty yards distant at the other end of the bridge. Owing to his sight being now dim, only one shot took effect, wounding one of the dragoons in the shoulder. "Let us fly," they cried, it is the Evil Spirit of the mountains; he would kill our whole army." Accordingly they precipitately fled, just as the Leaghian sank down exhausted at the foot of the rock. At a distance they ventured to look back. "It hath vanished in

> From the Washington Union. Mr. Everett and the Hulsemann Letier.

We commented with some freedom, a few days ago, upon the allegation made against Mr. Everett by a correspondent of the New York Evening Post, that he had set up a claim to the authorship of the celebrated Hulsemann letter. Our censures were based upon the supposition that the allegation was true.-Mr. Everett remains silent on the subject; but the Boston Courier relieves him to some extent of the injurious imputation; and as that journal is understood to occupy a relation to the parties concerned which gives weight to its comments, we deem it but an act of justice to Mr. Everett to publish them, as

cumstances which are without any origin in fact. We understadd that the whole of his statement in regard to Mr. Everett's correspondence with Mr. F. Webster during Mr. Everett's late visit to Boston, felt it due to those they represented to offer their Mr. Fletcher's reply, the exitement of friends, &c., situation "for sale to the United States, for the sum of \$2,500." The British steam frigate Inflexible was employed in conveying Turkish troops from Constantinople to Varna. A portion of the British fleet was also near Varna, with the intention of watching the new and unexpected movements of the Russians.

Concerning the additional news that has come by elegraph to the effect that Hisrova and Matschin had been captured, no details are yet to hand. As soon as the intelligence of the passage of the Danube by the Russians reached Omar Pasha, he sent reinforcements to the troops posted at Trajan's Wall, between Chernavoda and Kostendie. When Mustopha Pasha, the Turkish commander, found the Russians were in too great force, he retreated at first upon Matschin, and subsequently upon Badadagn. His force in the field is not more than 20,000 men, exclusive of garrisons. Success in the present operations would give the Russians complete command of the mouths of the Danube. They have already drawn chains across the Sulina channel.

One cannot listen long to what is being said relative to the war, without coming to the conclusion iect by the same number of commentators or critics. All, however, appear to concur in the opinion that the people and government of the United States are to be almost alone gainers by the dire contest. This opinion is predicated on the now unanimously prevalent belief that we will be able to preserve our neutrality. > FRANCE AND THE UNITED STATES .- A Parisian journal speaks thus of the probability which exists of an increase in the export of American grain to France as one of the results of the war in the Orient:-

"We have never, for our part, considered the cereals of Southern Russia as indispensable to our internal consumption. Odessa, Azoff and the other ports of those shores have already furnished this year from 12,000,000 to 14,000,000 of hectoliters of grain; they could yet furnish from 8,000,000 to 10,000,000. This undoubtedly would be a great resource, but the prohibition is not irremediable. The United States also have a considerable excess, which has been estimated of April; fell in with the first part of it in lat. 47, selves estimated the deficiency of Western Europe at 60,000,000, it will be seen that we have still a large never, during that time, with less than from forty to margin, and that we can get along without the cere Austria and Russia are reported to be negotiating fifty large iceburgs in sight, and frequently surround. als of the Black Sea, which are besides sufficiently vation in those countries is still in a state of barbarism. Besides, a thousand reasons ought to decide us to desert Southern Russia, and to prefer the United States, whose products are so much superior. In the first place, the navigation of the Mediterranean and the Archipelago is much more dangerous than that of the Atlantic Ocean; in the second place, the United States are a civilized country, which will receive our products in exchange for its own, whilst the countries bordering on the Black Sea, still comparatively a desert, receives only our crowns; and finally our commerce with the United States, whose future is immense will very favorably affect our vine cultivation, the fabrics of Lyons, and the articles of Paris, whilst the commerce of the Black Sea is for us a veritable ruin."

The National Intelligencer. Mr. Clingman of North Carolina, in his late able speech, in the House, has the following just re-

marks in regard to the National Intelligence. "The gentleman from Georgia, [Mr. Stephens,] I remember, commented upon the course of the National Intelligencer. From the beginning the Emperor's government made it a point to ascertain how far those suppositions were founded. The charge d'affairs of his Majesty at Washington was accordingly instructed to direct the serious attention of the American cabinet to the rumors in circulation on the subject. The reply to that application was such as we had a right to expect. The Minister of Foreign Affairs has informed me that the federal government has given the representatives of France the most formal assurance hat acts so contrary to the law of nations would not be tolerated in the territory of the Union. This honest and explicit declaration is conformable both to the conventional law and the legislation of the United States, and is in perfect accord with the principles of a great nation, which has shown itself, in every circumstance connected with the sea, the energetic supporter and defender of the rights of neutrals and the laws of natural equity. To be convinced of his, you have only to examine the different treaties concluded by the United States, and the law of the 20th of April, 1818, on the subject. Our vessels may, then, in that respect, as well as all others, continue their operations with security. The high soli citude of the Emperor has everywhere efficaciously nercial interests.

HALF PAST 3 O'CLOCK, P. M. The Convention re-assembled at half past three, Hon. Asa Biggs in the Chair. The Committee on the permanent organization of the Convention, reported brough Mr. Wright, of Cumberland, Hon. A. RENCHER, of Chatham, as President of the Convention Mr. Rencher was unanimously chosen President of the Convention, and was conducted to the Chair, by Col. J. B. Jones, of Currituck, and C. G. Wright, Esq., of Cumberland; whereupon he addressed the

Convention as follows: Gentlemen of the Convention: I accept with pleasure the post which your kindness has assigned me, and I should be equally unjust to myself and unworthy of you, if I did not feel grateful for it. Though diffident of my ability to do justice to the station, I throw myself at once upon your generous indulgence.

Gentlemen, we are assembled here to consult for the common good, not merely of the democratic party, but the common good of our common country .-That country has advanced from infancy and weak. ness to manhood, national greatness and national renown, under the benign influences of Democratic

Fortunately for us, the Democratic party can boast of many honored members, who stand ready and able to bear your standard aloft in the hotlest of the fight at your command, yet we have no ambitious aspirants to distract the harmony of our

administration, and you may thank the people for At a Convention of the Demrcratic party of North their honest condemnation of these principles. Oth-Carolina, held in the city of Raleigh, on Wednesday, the 19th of April, 1854, on motion of C. G. Wright, dens our country everywhere and rewards industry orable gentleman—a wise and able statesman—a Esq., of Cumberland, the Hon. Asa Biggs, of Martin, and enterprise, we should have been borne down by sound and reliable Democrat. You may well be them, and these Whig measures would have hung like an incubus upon the enward and glorious march

> for all our ills They have all been repudiated, but grape" and the VICTORY IS OURS. not until they had first been repudiated by the peotion of the proceeds of the public lands. They simply declare that they are in favor of North Carolina about minor matters. If in these we cannot agree, getting her share of the public lands—well, who is against it? The Democrats contend, and justly contend that N. Carolina gets her share most effectually soms of your families, and the welcome plaudits of the public lands—well, who is about minor matters. If in these we cannot agree, let us at least agree to disagree.
>

>
> Wishing for each of you a safe return to the bosoms of your families, and the welcome plaudits of when the public lands are applied, as we are bound many gratified friends, I pronounce this Convention by law to apply them, first in the payment of the adjourned sine die. public debt, and then in the payment of the expenses of the federal government. In this way North Carolina gets her just and equal share, and it is the only way she ever will do it. But did the whigs, when in power, ever propose to give North Carolina her just and equal share of the public lands? Nothing like it—the very reverse—they offered her a stepson's portion. By the Bill of 1841 they gave to each of the new States 500,000 acres of the public domain, and 12 per cent. over and above what was to be given to North Carolina, and even that insulting portion was snatched from her by these same whigs, that they might lay upon her greater and additional burthens. A provision was inserted in the law, to accommodate the views of the then President of the United States, that no distribution should take place if the compromise of the Tariff should be violated, and the duties raised above 20 per cent. The compromise was violated-the tariff was raised above 20 per cent., and distribution was scattered to the four winds; but not until the new States had received each their 500.000 acres of the public lands, and this too was done by this same whig party who now profess so much zeal for the just and equal share of North Carolina in the public domain. The people asked for bread and they gave them a stone-they asked for fish and they gave them a scorpion.

The Whigs, in their extravagant promises and small performances, remind me of an anecdote which I once read in Esop's Fables, a book full of practical wisdom. A poor Catholic was overtaken in a storm at sea. Alarmed at the sudden approach of death-Halifax-Dr. L. W. Batchelor, Col. T. P. Alston, he betook himself to his guardian saint-he prayed earnestly-he promised extravagantly, if the saint would only conduct him to the haven of safety, he would dedicate to him waxen candles of great size and value. A friend who overheard his promises re-Eli minded him of his total inability to do any such Olive, D. C. Carrington, B. B. Alford, B. H. Tom-linson, Linn B. Sanders, J. W. B. Watson, P. R. once get to land and I won't give him a tallow can-Tomlinson, A. J. Heath, W. J. Blow, T. W. Whitley, dle as large as your finger. So it is with the whigs. when the elections are on hand and the political campaign rages, they promise every thing-the election over or in power they perform nothing-large waxen candles before the election-not the smallest tallow

They complain loudly of unjust and unequal appropriations of the public lands for the benefit of the new States. So do we, but whose fault is it? I challenge contradiction when I say the Journals of Congress will show that these measures are more generally supported by Whigs than by Democrats, Moore-D. M. McIntosh, J. L. Bryant, Col. Jno. and all of them received the approval and signature of their model Whig President! They produce an evil and then assign that evil as a reason for breaking up that land system which was adopted by Washington and matured and approved by every succeeding President.

But I must come to a close. It will thus be seen num, Dr. J. W. Foster, G. F. Moore, J. R. Mason, that the Whig party have from time to time repudia-diately purchase and administer Dr. M'Lanes Celebrated Verprofession; while the Democratic Orange—Gen. Joseph Allison, John W. Messes. Mortimer & Mowbray—Dear Sirs.—My little girl centracted lameness, and began to lean one side, during the early part of last Summer, but I thought it was from a habit she had acquired of standing on the left foot. Several persons teld me that it was hip disease, which I was unwilling to believe, until she became so crooked that I was quite alarmed. In September I took her to one of the best physicians in our city, who said that her caines in our city. cians in our city, who said that her spine was affected, and prescribed accordingly. The medicine being of no service to her, he then pronounced it hip disease, and said she would probably be lame for life. I then made use of a much advertised and celebrated Liniment, which was said to be beneficial in such cases, and continued it until the 10th of February, when I changed it for Hartshorn Liniment, which I used until the 18th.

Her sufferings becoming more acute, I returned again to

the first-mentioned Liniment, but she still continued to grow worse, and could not move or be moved without the mo tense suffering. I then bought a bottle of HAMPTON'S VEGETABLE TINCTURE, and on the third day after she had begun to use it she could straighten herself and stand up without support. The little creature was so overjoyed that she threw her hands over her head and exclaimed, "Oh see, I can stand by myself." She had not been able to stand as straight for two or three months before. It is one mont since she commenced using the Tincture and she can now walk as well as before taken sick. Respectfully, H. W. FRANKLAND,

WILMINGTON GALLERY.

WHAT treasures of art does this little room contain?—
Whichever way you turn, some immortal creation greet your eye. Here you can linger profitably for hours contemplating the noblest of God's creation—man; here converse silently with the living and the dead, until the withered arm of memory seems again restored and strength ened, and reaches forth its hand to greet those with whom we were once intimately associated, but now inhabit the gloomy prison house of forgetfulness. Who would die with out leaving so desirable a token of remembrance behind?

Here beauty, with its diversity of expression and features, glows forth from the plate with rapturous divinity, and fascinates the eye, until the heart worships them, not like the glows forth from the plate with rapturous divinity, and fascinates the eye, until the heart worships them, not like the

Democratic State Convention,

This body met at the Commons Hall at Raleigh, on organized by calling Hon. Asa Biggs of Martin to to get, and delegates continued to arrive. the Chair, and appointing Mr. Stone of Franklin, and Mr. Williams of Caswell as Secretaries. After calling the roll and the appointment of a committee of two from each district, to report officers for the permanent organization of the meeting, the convention by the Secretaries as 56.

At the hour of 31 p. m., to which the Convention had adjourned, several other Counties reported themselves. The Committee upon permanent organization, reported for President, Hon. A. Rencher of Chatham, assisted by six Vice Presidents, of whom two were son, and Col. Gaston Meares of Brunswick; Messrs. Sampson, were appointed Secretaries.

The address made by Mr. Rencher on taking the Chair, was really an eloquent and finished production, exhibiting in a clear and forcible manner the grounds ments by which these grounds are maintained. Mr. Rencher was warmly applauded.

On motion, a committee on resolutions, consisting of two from each district, was appointed by the Chair, at the suggestion of the respective delegations. We cannot now remember every name on 75 o'clock on Wednesday night. To this session, must be decided. the Committee on Resolutions, through its Chairman, Hon. Asa Biggs, reported the following Resolutions, which were adopted unanimously:-

We, the delegates of the Democracy of North Carolina, in convention assembled, considering the occaand time-honored principles that bind us together as a

United States Bank; for a Tariff for Revenue and against a Tariff for Protection; for economy in the administration of the Federal Government, and against extravagant expenditures; for the only payment of the Public debt and against the payment of unjust standing and much beloved and respected by those and unfounded claims.

2d. Resolved, That President Pierce, by his inaugural address and annual message, and by his dethe distinguished position he now fills; and in the administration of the government upon the principles they boldly avowed by him, he will place himself

3d. Resolved, That the bill now pending before Congress to organize the Territories of Nebraska and Kanzas, has our hearty approval, and we tender to Senator Douglass, and other members of Congress mere matter of form; but it is known to be the exfrom the non-slaveholding States our thanks for their manly and national course on this question.

4th. Resolved, That the Public Lands are the common property of the people of the United States. clusive benefit of any one of the States, would be unjust and unconstitutional.

5th. Resolved, That the Public Lands, being the common property of the people of all the States. should be held as a common fund, and disposed of for the common benefit of all,-first, in the payment of the public debt, and then in defraying the expenses of the Federal Government, so as to reduce the taxes now imposed upon the common necessaries of life. 6th. Resolved, That the Democracy of the State

public affairs under David S. Reid; that he has hown himself a just, patriotic and able Executive; and, in addition to the fame he has achieved as the originator and champion of Free Suffrage, and as the he considered inexpedient and wasteful of the public long-tried and unwavering advocate of the people's rights, he will carry with him, in his retirement from his present post, the consciousness of having devoted his best energies to the public good, and the sincere and enthusiastic confidence of the Democratic party.

7th. Resolved, That the constitution of this State ought to be so amended as to extend to all free white men the same right to vote for members of the Senate as for members of the House of Commons; that we regard the plan of amendment by Legislative enactment, and the sanction of the people at the ballottutional; that we are opposed, under any and all circumstances, to a change in the basis of representation in the Senate and House of Commons; and that we will never abandon the great principle of of both parties in pressing it, in the face of all opposition and difficulties, to its final triumph.

8th. Resolved. That it is our earnest wish and demineral and commercial, fostered and developed, and the State having already entered upon a system of nternal improvements, to that end, and made large investments with that view, it would, in the opinion f this convention, be politic and proper for the Legislature from time to time, to extend such further ai. in the completion of the works already undertaken, and the extension of the same, as a just regard for the means and resources of the State will prudently allow. 9th. Resolved, That our present system of Common Schools ought to be fostered by the Legislature, and its efficiency increased, until the blessings of Education shall have been afforded to all the children

of the State. 10th. Resolved. That we reaffirm the resolutions of as far as they are applicable to the present condition

of the country 11th. Resolved, That having entire confidence in the ability, integrity and sound principles of THOMAS North Carolina as a suitable candidate for Governor

It was deemed proper by the committee on resolutions to make no recommendation on the subject of a candidate, leaving that matter for action in full cauhad been passed upon, nominations were in order .of Hon. John Ellis, of Rowan; of Col. S. J. Person. of New Hanover; and of Hon. Calvin Graves, of Caswell, were suggested by their respective friends .-It was stated, however, on behalf of Judge Ellis, that he was sincerely anxious that his name should not be used, but that his friends should go for Mr. Bragg. The name of Mr. Ellis was withdrawn. A delegate from Caswell stated on behalf of Mr. Graves that that gentleman could not, under any circumstances, consent to be a candidate, but was anxious for the nomination of Mr. Bragg. The name of Mr. Graves was withdrawn. The friends of Col. Person,

ination hardly occupied twenty minutes. The utmost harmony and good feeling prevailed throughout, and the event was hailed with startling enthusiasm.

One statement will exhibit the harmony of the proceeding. The caucus organized at about 8 o'clock, The resolutions were read by Mr. Biggs, the Chairman of the committee on resolutions. Dissolution of the Union.

The New York Tribune, finding that the South is no longer menacing a dissolution of the Union, no longer giving vent to its just complaints in resolutions and speeches in Congress and the Legislatures, but with a spirit too calm and resolved to be noisy and turbulent, is pursuing in the path pointed out by her commercial conventions, the true road to indepen dence and security in the Union-the New York feels its bile stirred to the very centre of its liver, and professing to believe that a dissolution of the Union is still advocated by the south, has an elaborate article, which it promises to follow by others intended to show that the north would not be commercially, or in any other way, injured by such dissolution. April 21—schr Leuisine, Robinson, from Charleston, About the same date we find in the New York Herald T. C. Worth. a leading article, in which it is alleged that W. H. Seward and his followers design to create a new political platform and a new party upon the basis of The increasing prosperity of the Company, we are eternal hostility to Southern slave institutions. "The ground has been deliberately taken," says the Herald, "and the declaration clearly made, that henceforth the combined Seward organization of the North will occupy a platform of anti-slavery and sectional

Indeed, the whole political course of Gov. Seward, whose sagacity is as generally conceded as his faithlessness to the constitution, is in perfect keeping with the theory that he looks exclusively to sectional support for the future gratification of his ambition. No one supposes that principle has anything to do with his assaults upon Southern institutions, and it is quite as difficult to see any policy in them, unless he intends to build up a sectional party which, he is too acute not to foresee, must eventuate in a dissolution of the

More than Gold to the Sick .- From one of the most re spectable Druggists in South Carolina.
Charleston, S. C., Sept. 21, 1853. Messrs. Mortimer & Mowbrary:—The sale of your HAMPTON'S VEGETABLE TICTURE is increasing every day, and every bottle sold recommends this valuable medicine to the afflicted. Several of our planters have tried t in different cases with astonishing success, and are getting it by half dozens. It has been found to be the greatest Remedy for Rheumatic Affections, and a wonderful cure has been performed on a negro boy suffering by Fits. I will furnish you with a number of certificates if you wish them. Please send me as soon as possible a supply of the Trocture.

I am gentlemen, yours, W. G. REV. VERNON ESKRIDGE, U. S. N. Mr. J. E. Boush—Sir: While I am in general opposition to Patent Medicines, candor compels me to state that I have great confidence in the virtues of HAMPTON'S VEGETABLE TINC.

TURE. For several months past I have used it in my smally, and in dispepsia, loss of appetite, dizziness and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted, as a safe and efficient remedy.

Great Cure of Rheumatism by Hampton's Vegeta ble Tincture:

Chester District, S. C., January 3d, 1863.

Messas. Mortimer & Mowbray—Gentlemen: For the last five years I have been a severe sufferer from Rheumatism, till seeing your recommendation of Hampton's Vegetable Tincture," I purchased a bottle, and the first dose has so much relieved me that I consider it but justice to give to the suffering world the result of the application.

f the application.

Mine was Acute Rheumatism in the back—so bad that I was confined to my bed for the last six months. The first bottle acted like a charm; the second restored strength to my poor afflicted back, and am now as well and feel as young as when I was rteen. I am now seventy-four years of age. I consider your Tincture the greatest discovery of the age;

nd poor suffering humanity ought to erect a monument ito Dr. lampton, who has saved thousands from pain. And you, general, have acted the part of public benefactors in dissemination, have acted the part of public benefactors in disseminations. I am a plain cotton planter, and have never written for litera ry tame; but when my fellow beings are afficted, shall I heatte, or through modesty, withhold any information valuable to my fellow man? So, if you consider this worthy of a place in any of your newspapers.
